No. 2434

MONDAY, APRIL 11. 1743.

Yesterday arriv'd a Mail from Holland.

Petersburg, March 21.

THE Court has caus'd an authentic Account of the Losses sustain'd by the Shah Nadir, in his last Expedition, to be printed here, and delivered to the Foreign Ministers. According to this Account, he took the Field against the Tartars, with 52,000 Men of his best Troops; and of these he had 1,345 kill'd, and made Prisoners in several Skirmishes, in his Retreat. He lost Sutlers, Waggoners, Pioneers, and other Dependents on the Camp, 6723; of Camels, Mules, Horses, with the Effects with which they were loaded, 16030, including 130 Camels, and 49 Mules, of his own Equipage. Besides this, 1200 Pound of his Gold and Silver Plate fell into the Hands of the Tartars. He left in the Road 20 Pieces of heavy Cannon, having first split them, and 40 Field Pieces; nay, last, he was distressed to such a Degree, as to be obliged to abandon his military Chest, and all the Money he contained, in order to facilitate his March. When he arriv'd at Derbent, he had no more than 22,195 Men in a Condition for Service. There are several still more disadvantageous Circumstances in this Relation, which accounds perfectly well for the Shah's present pacifick Disposition, and his giving strict Orders, when he march'd into Persia, to all his Governors, and other Officers in the Frontiers, to maintain a close Correspondence, and perfect Friendship with the Russians. We look upon it as a demonstrative Proof of the Truth of this Intelligence, that the Court has thought proper to recall nine Regiments of Foot, making in all a Body of 12,000 Men, from the Neighbourhood of Moscow, in order to employ them as Occasion shall require in the approaching Campaign. The Professors of Mathematicks and Natural Philosophy, who went lately to Kanitscha, are return'd lately thro' Siberia, and visited, in their Way, some of the illustrious Exiles resident there at present. They report, that Count Osterman was in good Health at Belewska, and went constantly to the Greek Church to hear Sermons, tho' he was not of that Communion; and that General Count Munich was in very good Health at Pilim, tho' it is reckon'd a very unwholesome Place, and employs himself in cultivating a very pretty Garden, which lies near his Habitation. It is confidently reported, that her Imperial Majesty has sent Instructions to her Ministers at Abb, to acquaint the Swedish Plenipotentiaries, that, provided the Swedes will unite at home, and settle the Succession in such a manner, as that she may depend upon them as good Neighbours and firm Allies, she will readily grant them better Terms of Peace than even themselves seem to expect.

Stockholm, March 29. The Peasants remain firm to their Resolution of electing the Prince Royal of Denmark at all Events, but the other Orders are by no means well pleas'd with this; which has given Occasion to the French and Danish Ministers to make Propositions in Form to the Secret Committee. The first has offer'd, that in case the States elect the Duke of Deux Ponts, his most Christian Majesty will furnish them immediately with a strong Squadron of Men of War, and three Millions of Dollars in Money; the latter declar'd, that his Danish Majesty, in case his Son was chosen, would grant them a Squadron of 12 Men of War of the Line, and withal a Succour of 12,000 Men of his best Troops; and in two Month's time. The Minister from the Bishop of Lubeck had also an Audience of the Secret Committee, in which he declar'd, that his Master would procure the Restoration of the great Duchy of Finland, with the Addition of the Town and Port of Wybourg, in case he was elected. The very Day the Post came away, the Dyst was deliberating on the grand Question, whether they should proceed immediately to the election of a Successor to the Crown, or whether that affair should be postponed, till the Effects of the Conferences at Abo should be known? But it was not determined when the Letters came away which Resolution would take Place.

Copenhagen, April 7. The King has sent Instructions to Count Birkenfin, Minister at the Court of Sweden, to use his utmost Endeavours to fix the Alliance between the two Crowns on the firmest Foundation, and to make the sole Object of his Care, that the Succession to the Throne of Sweden may not be attended with any Circumstances disadvantageous to Denmark. The English Minister, Mr. Titley, had a long Conference with our Council on this important Affair. The Abbe la Maire, who is charg'd with the Concerns of France here, re-

ceiv'd Yesterday a Courier from Stockholm, but we know nothing of the Contents of his Dispatches. The same Day the Russian Minister dispatch'd an Express to his Court.

Turin, March 23. We are actually employ'd in tracing 3 Camps, each for 8000 Men. The King, it is said, will recall his Troops from Lombardy, and has resolv'd to augment each Regiment in his Service with a Battalion. Our Troops are thought to consist of about 45,000 Men. We reckon they will be shortly join'd by 12,000 Swiss in the Pay of Great Britain, as well as by some Austrian Regiments. Here are two Deputies from the Canton of Berne, but we do not as yet know their Errand. It is however certain, that the Troops of that Canton have taken Possession of the Posts abandon'd by the Spaniards near Geneva. We reckon the Army of the Infant Don Philip consists of about 22,000 Men, but they expect speedily a Reinforcement of 10 Battalions; they have employ'd Workmen to enlarge the Roads, and have sent Engineers to view the Passes thro' the Alps; but we have taken Care to secure them effectually, as well by posting considerable Bodies of Troops wherever we apprehend any Danger, as by erecting Redoubts well furnish'd with heavy Artillery. There is a prodigious Desertion among the Spanish Troops.

Vienna, March 30. The whole Royal Family is at Schoenbrunn, from whence her Majesty comes almost every Day to this City. She will continue at that Castle till she sets out for Prague, which will be the 25th of next Month. She has given Notice to all the Persons of Quality who are to attend her, to take as few Servants, and as little Baggage with them as possible. We hope the City of Egra will be reduced before her Majesty's Coronation. Prince Charles is to command the Siege, and Prince Lobkowitz is to cover it. It is confidently reported here, that a Body of Saxon Troops will be employ'd therein as Auxiliaries. The Count de Dona is return'd hither, and has been extremely well receiv'd at Court; where he presented her Majesty with a List of the Officers to whom his Prussian Majesty has given Leave to serve as Voluntiers in her Army in Italy. He likewise told her Majesty, that his Master had command'd him to wish her a happy Campaign, which he did not doubt would produce a speedy and honourable Peace.

Frankfort, April 12. His Imperial Majesty named, a few Days ago, the Officers who are to serve next Campaign, and even declar'd, that he intended to command his Army in Person. But we apprehend, that the March of the English Auxiliaries towards Mentz may occasion some Change in his Measures. We begin to perceive, that this March has had a strong Influence on the States of the Empire. Since they advanc'd to the Rhine, there have been high Debates in the Dyst, where the Ministers of several Princes who oppos'd that Measure before it was taken, have roundly declared their Approbation of it, and that before they were awed by the Neighbourhood of French Troops. It is likewise very evident, that abundance of Princes and States will join their Troops with these, which inclined his Imperial Majesty to defer to quarter 10,000 French in this Neighbourhood, but that the Senate of this City absolutely refused their Consent. We are this Moment inform'd, that ten Companies of Austrian Foot arriv'd Yesterday in the Territory of Nassau-Usingen, within five Leagues of this Place, and the Vanguard of 3500 Men are arriv'd there this Day. His Excellency the Earl of Stair will fix his Head Quarters at Freidberg in the Wetteraw; and the Duke of Arenberg his at Dietz, a Town belonging to the Prince of Orange. His Imperial Majesty will set out for Augsburg in a Day or two, and from thence proceed to Munich; but the Empress, the Prince Royal and Electoral, and all the Imperial Family, together with the Aulic Council, and the Dyst of the Empire, will remain here.

Ratisbon, April 8. As there is a great Number of Foreign Troops in the Neighbourhood of this City, our Magistrates have thought proper to order the Gates of this City to be shut early every Night, and not to be opened till an Hour after Sun Rising. The French Troops in the Upper Palatinate increase every Day; the greatest Part of their Cavalry desirous towards Straubingen; they have no less than six Bridges over the Danube; that which they had at Ingoldstadt, was, the Day before Yesterday, brought to Stadtamhof.

Paris, April 10. As the King did not intend to take the Field in Person, unless his own Distrustions had been attack'd, we begin to be pretty well satisfied there is no Danger of his making the Campaign this Year; especially as all the Court Journies are settled. His Majesty is to spend two Months at Fontainbleau, and about six Weeks in a Kind of Tour for his Amusement. It is said

the Dukes de Noailles will not set out this Forenight; and it is attributed to his Advice, that we do not march any Troops towards Savoy. It is whisper'd that he said in Council, that we should reap all the Advantages of the War, if the Spaniards forc'd a Passage that Way into Italy, without running the least Hazard if they failed in their Attempt; whereas if after a Junction the Forces should fail of penetrating into Piedmont, it might produce very unlucky Consequences.

Munich, March 29. The Baron d'Elis, Nephew of our late Elector, Prince Theodore of Bavaria, Bishop of Ratisbon, Count Ingelheim, Count Oststein, and Baron Keffelstadt, are Candidates for the Electoral Dignity. The Election is fixed for the 22d Instant, and as Prince Theodore is not of the Chapter, a Brief is expected from Rome to render him capable of being elected; tho' it is said at the same time, that the Chapter have resolved to chuse one of their own Body.

Hague, April 12. The Chevalier Trono, a noble Venetian, and Minister from the Republick of Venice, delivered his Credentials on Wednesday last to the States-General. The Deputies of Overijssel have signified to their High Mightinesses the Assent of their Province to the Proposition of Holland, for assisting the Queen of Hungary. That of Zealand is expected every Day.

Put back and failed again, the Tagus, Clements, for Lisbon. Came down the Seahorse, Randal, for Virginia. Remain the Lightning Bomb, and the Dutch Ship for India.

LONDON.

After a warm Debate in the Swedish Dyst on the 20th of last Month, it was carried upon the Question, to send Orders to their Plenipotentiaries at Abo to conclude their Conferences there in six Days, and return Home immediately, if Peace cannot be had on moderate Terms.

Private Letters from Stockholm dated March 22, O. S. say, that Orders having been sent to 3 Detachments of several Regiments, making in all 1000 Men, to embark, with Intention to make a Descent on the Isle of Aland, they mutinied, and were with much ado reduced. It is said the Dyst has taken a very severe Resolution upon this Subject; it is also said, that another Body of Troops is sent to make a Descent on that Island; and that a 3d Corps has been embark'd on a secret Expedition of very great Importance. The Commanding Officer is directed not to open his Instructions till he is a certain Number of Leagues at Sea.

General Buddenbrook was dispatched by his Prussian Majesty, when he left Silesia, to Memel, in order to assemble a considerable Body of Troops.

The 20th Instant, N. S. was fix'd for the Rendezvous of all the French Forces at Metz; but on the March of our Troops, Orders were sent for them to assemble the 15th.

From the Hague they write, that it was expected that the Baron de Reischach would speedily present a Memorial, demanding an immediate Supply of Troops for the Assistance of the Queen his Mistress, which it was believed he would obtain.

Last Saturday the Books of his Majesty's Ships the Plymouth and Seaford, were sent from the Pay-Office in Broadstreet to Plymouth, in order to pay off the Crew of the former, and the latter down to the 31st of December, 1741.

The same Day the Books of his Majesty's Ship the Boyne were sent from the above Place to Portsmouth, in order to pay the Crew of the said Ship down to the 31st of December, 1741.

Last Saturday Morning about eight o'Clock a Fire broke out at the House of a Carpenter, the Corner of Duke-street, Grosvenor-square, which entirely consumed the said House, and very much damag'd the next adjoining one. A Child perish'd in the Flames, and its Mother narrowly escap'd.

The same Morning a poor Woman was found drowned in a Brook near the Bell at Edmonton. She came to Town on Friday to buy a Shroud for her Husband, who died the Day before; and it is supposed that upon her attempting to go over the Bridge, the Wind being very high, blew her into the Brook.

Also the same Day the Right Hon. the Lord Mayor held a Court of Conservancy in the Court of Common Pleas, in Westminster Hall, when several Fishermen attended, and were fined for fishing with unlawful Nets.

Last Thursday Mrs. Lloyd, a Milliner, in Pater-noster Row, Spital-fields, returning home in a Coach, was suddenly taken ill, and died before she got to her House.

Last Week died Mr. Harris, an eminent Apothecary, in Leman-street, Goodman's-fields, said to have died very rich.

On Saturday a Reprieve came down to Newgate for Cordelia Taylor, concerned with Lot Cavenagh, for robbing one Taylor near Black Mary's Hole.

John Cleveland, Esq; is appointed a Commissioner of the Navy, in the room of Thomas Pierce, Esq; deceased.

Last Saturday died, after a few Days Illness, Mr. James Forster, Master of Sidler's Wells, near Islington.

The same Day a Hamper was drove on Shore by the Tide near Lambeth, and a Waterman seeing it, took it up, imagining he had got a great Booty; but when he came to open it, he found the four Quarters of a Man, but no Head.

WHEREAS the Champion of the 19th of March last boldly affirms, that great Quantities of Wooll are smuggled from Dorsetshire; and in particular, that Mr. C——d, of Lyme in that County, had in the Year 1741 a Cargo seized that was intended for a foreign Market: But as it was a Court Borough, and Mr. C——d a Manager in the same, by means of a Friend he got his Cargo of Wooll restored, to the great Encouragement of Smuggling; and that could Mr. Webber be insured of a proper Indemnity, he woud discover the certain great Person by whose Means this Cargo was restored, together with all the Particulars relating to it.

And whereas we, whose Names are hereto subscribed, do apprehend that the said Champion does mean, or would have the World believe, that we are the Persons concerned.—These are therefore to assure the Publick, that every Particular of the aforesaid Charge, as far as the same is meant or levell'd at us, is entirely a false and scandalous Reflection; and, as a Testimony thereof, we do hereby call on the Author of the said Paper, and also on Mr. Webber, in the most open and publick Manner, to discover and make known all and every Particular relating to their pretended Charge upon us, with the necessary Proofs whereby they can be supported;—and for which we do hereby promise and engage to indemnify them, as far as the same relates to ourselves:—And, as a further Encouragement, we do hereby offer, as a Reward to them, or to any other Person or Persons, the full and entire Sum of Five Hundred Pounds of good and lawful Money of Great Britain, to be paid within ten Days next after such Proof shall be duly made.

And we further desire Mr. Webber, and the Author of the said Paper, to take Notice, that we are inform'd their publishing this most notorious and infamous Falsehood upon us falls within the Reach of the Law, and that they will most assuredly be prosecuted for the same with the utmost Severity, unless they'll consent to publish at the Head of the Champion for four Weeks successively as follow:

Whereas we have utter'd and publish'd in the Champion of the 19th of March last, that great Quantities of Wooll were lately smuggled from Dorsetshire, and in particular that Mr. C——d, of Lyme in that County, had a Cargo seiz'd that was intended for a foreign Market, and afterwards restored to him by Means of a Friend.—These are therefore to assure the Publick, that we are not capable to produce the least Proof, or Shadow of Proof, to support the same; and we do hereby most solemnly declare and protest before God and the World, that we firmly believe the said Account to be a false, scandalous and malicious Invention, and without the least Foundation in Truth or Reality.
